Dear Colleagues and Partners,

We are with everyone in fighting the COVID-19 pandemic. We support the submission of reports on various aspects of the pandemic.

The Science and Education Foundation will hold six scientific conferences in August 2021 in Burgas, Bulgaria. View Upcoming [ISE Conferences](#).

Our open-access [Scientific Journals \(ISP\)](#) promote interdisciplinary research. Participants and co-authors are not required to pay any fees for publication in the journals International Scientific Publications.

We will be as flexible as we can to allow delegates to switch registration types between "on-site" and "online," depending on their circumstances, up to twenty days before the conference.

All oral reports will be recorded, and the videos and the posters in PDF format will be placed on the conference page ISE Collection page.

When you participate in the conferences, we will apply a complete protocol for your safety. We care about your Safety because our Priority is you.

Be well and stay safe,

Ivan Genov
Science and Education Foundation, Bulgaria
